

Prophecy from Sunday, June 18, 2023

Given by Nancy Campbell

I believe the Spirit of the Lord would speak and say,

“It is the time, sons and daughters, to speak out. There has been a time  
To be quiet, to press in and pray, still continue to do that, but It’s time to speak  
out for there are those, right now, that I am calling into my kingdom; who will  
be part of My army that’s going to march forward and bring many to  
salvation.

They need to be identified and you are my sons and daughters, you  
can identify them as you listen to Me. It is important that you speak  
faith into these people because they are going to manifest My will and My doings  
in the earth but they need encouragement.

So, I say to you this day, wherever you are going, your work place, wherever  
you are going, the things you are doing, the grocery store; if I speak to you  
and say, go tell this person that I am with them, whatever I give you to say,  
say it. For it is the hour that I am establishing My presence in various areas  
of the earth. You need to identify it and encourage these people so they  
may move forward.

Don’t be afraid. Speak out, be brave, be bold. Don’t ponder it, thinking I  
don’t know what to say. Just open your mouth, speak, and I will be behind  
you. I will anoint you and I will open doors, says the spirit of God. These  
people need to be identified and recognized right now.

So, as your going through your day, look for them. They may be people that  
are saved already or they may need to get saved, but they need encouragement

because I am calling these members of my body forward. I'm pulling them out of where they are and placing them where they're to be in My army.

So, fear not, speak out when you see My presence and when you're out in a restaurant or wherever you are, speak it out. Tell the people when you see the presence of God is upon them. Whatever I tell you to do and it will be manifest and it will encourage them. More people will be drawn in and they will be empowered to do what I am calling them to do.
