

Prophetic word from January 14, 2024
Given by Nancy Campbell

I believe the spirit of the Lord would speak and say, "This is a year, my sons and daughters, where you are going to continue to see shaking taking place. It is going to be different than what you have experienced in this past year.

So, you need to stand, to stand on the rampart. Stand and look at Me; stand and ask Me what I'm doing. Do not fear, for this is My doing, says the spirit of God.

There are things moving at a rapid pace now in your country that I do not approve of says the spirit of God. And you are going to see a halting, a halting and a stopping of things that are ungodly this year, such as you have not experienced before. There will be a pause, a great pause. Take notes, sons and daughters, when this happens. Do not fear; prepare yourself; open your eyes and see and ask me what you are to do in this pause.

This is important because this is going to be Me moving. It may look like something that is not good but it is Me moving and it needs to happen. I am not pleased with the rapid pace that society is moving in. Ignoring Me and thinking they can push forward. Even as the sons of God, back in the day, built the Tower of Babel. They thought they could reach to heaven and become so full of knowledge and I was not pleased and I spread them abroad and confused their language. Even so says the spirit of God, you are going to see something like this happen this year. I say, prepare, prepare your hearts. Draw close to Me. The only way you will be able to see is if you are connected closely to Me.

Do not say that is for somebody else. That is for people that pray all the time. You are my sons and daughters. You are My army and I am preparing places for you to step into and you may not think you can do it. When the opportunity arises, you may think no, I can't do that. Ask Me and if you are to do it, step into it boldly even if you don't feel prepared, even if you have no idea what your going to do, just step and I will be there under your feet says the Spirit of God.

So, know that the shaking is going to continue. Those men and women that are in seats of power that are ungodly are going to be shaken loose. You've seen a little of that and there is going to be more this year. There's going to be sudden things happen in the government, in the high places, people that think they can throw their money out there and obtain what is not of Me. I am going to shake them loose, says the Spirit of God, because this is not pleasing to Me.

So, observe and know that I am on the move. Yes, the nations are all in disarray right now as I told you they would be. But fear not, this needs to happen for what I am going to do. Remember, a great pause is coming. A halting and a stopping. Don't fear. Observe, stand on the rampart and see what I will say, says the Spirit of God.
