

Prophecy from July 23, 2023

By Nancy Campbell

I believe the spirit of the Lord would speak and say; Yes, I am bringing

My Glory, sons and daughters, I am bringing My Glory across the face of the earth. It is the hour, it is the time, so do not be discouraged when you see the shaking happening.

This shaking is from Me, says the Spirit of God. For I am shaking the whole earth right now, the things you are seeing; all the things happening; in the atmosphere, in the weather, in the universe. I am shaking the land because

I am about to pour out My Glory and everything that is not from Me will be shaken loose. Things of darkness will be exposed, for I am shaking the very foundations of the earth, right now.

Know this, know it is the season we are in. Do not be troubled. If you think you're out of step, you're sensing what I am doing, it's not you, it's Me doing it.

So, just flow with it. Step into My Glory. Acknowledge My Presence. Look for My Presence. Look in all of this at what I am doing.

Do not be deceived by the enemy. He is trying to stir things up but I am shaking loose everything that can be shaken in this hour, says the spirit of God. Those things that are not of Me, will be shaken loose. Those people that are in positions of power who are not supposed to be there, will be shaken loose in this hour, says the spirit of God.

Observe, watch for it, see it, embrace it. Acknowledge what I am doing. Set aside your own thinking and lean into My Presence, for I am about to pour out My Glory upon the earth, even My Glory that you sense and feel here, right now, My very Presence, it is about to explode across the face of the earth. This is why

there is a tremendous shaking happening all over.

You read the news and there's this happening in this country, there's this happening in our country, and it's all over and it's because I am shaking the earth. Have I not said in My Word, that I would shake the earth one more time?

This is that shaking, says the spirit of God. This is it.

So, fear not, yes, you might feel out of step, out of sync, that's just because of what I am doing. Look to Me, stand strong, be confident, proclaim My Word, speak into the darkness, and don't let anything stop you, says the Spirit of God, for I am on the move!
